SATYAJIT SANTOSH ROGAYE

ROLE: DATA ANALYST

Mumbai | +91 9372383929 | satyajirogaye052@gmail.com | www.linkedin.com/in/satyajit-rogaye | https://github.com/satyajit-rogaye |

Education

Bachelors Of Science Information Technology| CGPA : 9.40	2023- 2026
D.G Ruparel College, Mumbai	
Higher Secondary Education (12th) | Percentage : 77.33%	2021-2023
Shri Bhausaheb Vartak Arts, Commerce & Science College, Mumbai	
Secondary School Education (10th) | Percentage : 87.00%	2021
D.J High School, Mumbai	

Professional Summary

Detail-oriented aspiring Data Analyst with a strong foundation in Python, SQL, Excel, and Power BI, supported by hands-on experience in data cleaning, exploratory data analysis (EDA), and data visualization. Proficient in using Pandas, NumPy, Matplotlib, and Seaborn to process datasets, identify trends, and generate meaningful insights. Experienced in developing interactive Power BI dashboards and working on real-world data analysis projects involving sales, entertainment, and business performance. Possess a foundational understanding of Machine Learning and statistical analysis, with a passion for transforming raw data into actionable insights that support data-driven decision-making.

Skills

- Programming Languages: Python, SQL
- Technologies & Tools: Microsoft Excel, GitHub, Ms Word, Jupyter Notebook, VS Code, Power BI
- Libraries & Framework: NumPy, Pandas, Matplotlib, Seaborn, Scikit-Learn
- Data Analysis, Machine Learning Basics, Data Visualization, Data Cleaning

Projects

Data Cleaning |

- Performed end-to-end data cleaning and preprocessing on laptop sales and used car datasets by handling missing values, removing inconsistencies, engineering features, and converting data into suitable formats. Prepared high-quality datasets for data analysis and machine learning using Python, Pandas, Scikit-learn, and data visualization techniques.

Data Visualization |

- Python, Pandas, Matplotlib, Seaborn
- Performed exploratory data analysis and visualization on Netflix and IMDb movie datasets by analysing genres, ratings, release trends, and movie statistics. Created insightful charts and graphs using Python, Pandas, Matplotlib, and Seaborn to identify patterns and support data-driven decision-making.

Leaf Diseases Detection (Final Year) |

- Python, Flask, Machine Learning (CNN)
- Developed a web-based system that detects plant diseases from leaf images using a CNN model. Built with Python, Flask, MySQL, HTML, CSS, and JavaScript, the application provides accurate disease predictions, seasonal farming tips, and multi-language support for farmers.

Power BI |

- Student Exam Score dynamic dashboard using Power BI
- Apple Stores Sales Dynamic Dashboard
- Anime Universe Watching Dashboard
- Insurance Claim and Risk Analysis

Scikit-learn Machine Learning Project |

- Python, Scikit-learn, Pandas, NumPy
- Developed multiple machine learning models using Scikit-learn for prediction tasks such as salary estimation, student marks, exam scores, and result prediction. Applied data preprocessing, feature engineering, model training, and performance evaluation to build accurate predictive solutions.

Certifications

- Code With Harry –Data Science Course
- Deloitte – Data Analytics Job Simulation
- Info Bharat Interns – Data Science Virtual Internship
- Office Master – Power BI Workshop
- Coding Wise - AI Powered Data Analyst
- ICTRD – Indian Council For Technical Research & Development for Python

Languages

- English
- Hindi
- Marathi
